King's College Old Boys'  
Association Primary School No. 2 Team A  
英皇書院同學會小學第二校 英二A隊

Champion, App Inventor,  
CoolThink@JC Competition Grand Final 2019  
全港小學生運算思維比賽總決賽2019  
App Inventor組別 冠軍

Make Good Use of the Health Care Vouchers  
善用長者醫療券

CoolThink@JC inspires digital creativity in all students through coding education, and nurtures students' use of technology for social good. Three of the participating students gave back to society and developed a mobile application to help senior citizens make good use of healthcare vouchers. During the development process, elder students had opportunities to develop their leadership and team-building skills. Ricardo had grown into a mature and collected team leader since being a shy team member the previous year. Through tackling problems after problems, Ricardo ultimately led his team to win the championship of the territory-wide CoolThink@JC Competition.

「賽馬會運算思維教育」計劃透過編程啟發同學的數碼創意，利用科技助己助人。三位同學所編寫的「善用長者醫療券」程式，旨在解決醫療券被誤用的問題，並希望能切實地幫助長者，回饋社會。過程中，高年級的同學帶領低年級的隊友，培養領導能力、團隊及協作精神。羅同學今年度是第二次參加比賽，已經從一個羞澀的小隊員變成一個更成熟、工作有序的小領袖，並藉著計劃進一步提高解難能力，與隊友首次奪冠。
